

Resolution 18/XXI
Harvesting of *Dissostichus eleginoides* in areas outside of Coastal State jurisdiction adjacent to the CCAMLR Area in FAO Statistical Areas 51 and 57

Species	toothfish
Area	north of Convention Area
Season	all
Gear	all

The Commission,

Affirming that CCAMLR was established to conserve the marine living resources of the Antarctic marine ecosystem,

Recognising that CCAMLR also has the attributes of a regional fisheries management organisation as considered under the auspices of the United Nations,

Recognising that CCAMLR is the primary body responsible for the conservation and rational use of *Dissostichus eleginoides* in areas not under national jurisdiction,

Noting Resolution 10/XII concerning the need to harmonise management measures within and adjacent to the CCAMLR Area taking into account Article 87 of UNCLOS and in recognition of the obligations to conserve the living resources of the high seas under Articles 117 to 119 of UNCLOS,

Noting the role of cooperation in scientific research through collecting and exchanging data,

Recognising that measures to manage harvesting of stocks of *Dissostichus eleginoides* are needed in high seas of FAO Statistical Areas 51 and 57,

Recommends that Members provide data and other information, subject to their laws and regulations, relevant to understanding the biology and estimating the status of stocks in FAO Statistical Areas 51 and 57.

Recommends that Members take steps necessary to conduct only that level of harvesting of *Dissostichus eleginoides* in FAO Statistical Areas 51 and 57, which would ensure the conservation of this species in the Convention Area.
