

Resolution 27/XXVII
Use of a specific tariff classification for Antarctic krill

Species	krill
Area	all
Season	all
Gear	all

The Commission,

Recognising the importance of krill within the Antarctic ecosystem,

Mindful of the continuing increase in krill notifications received by the CCAMLR Secretariat and the potential for krill catch rates in the CAMLR Convention Area to also increase,

Noting the increased demand for krill products on the final destination markets,

Reaffirming the importance of continuing the orderly development of the Antarctic krill fishery to ensure that the expanding fishery remains consistent with the objectives of the Convention,

urges the Contracting Parties,

To introduce into their domestic law, and use accordingly, an appropriate tariff classification in order to improve knowledge of the volume and trade of Antarctic krill.
