

CONSERVATION MEASURE 26-01 (2008)^{1,2}
General environmental protection during fishing

Species	all
Area	all
Season	all
Gear	all

The Commission,

Concerned that certain activities associated with fishing may affect the Antarctic marine environment and that these activities have played a notable role in CCAMLR's efforts to minimise incidental mortality of non-target species such as seabirds and seals,

Noting that previous CCAMLR recommendations, and the provisions of the MARPOL 73/78 Convention and its Annexes, prohibit the disposal of all plastics at sea, in the CAMLR Convention Area,

Noting various provisions of the Protocol on Environmental Protection to the Antarctic Treaty in particular its Annexes as well as related Recommendations and Measures of the Antarctic Treaty Consultative Meetings,

Recollecting that for many years advice from the Scientific Committee has indicated that significant numbers of Antarctic fur seals have been entangled and killed in plastic packaging bands in the Convention Area,

Noting the recommendations of CCAMLR and the provisions of the MARPOL Convention and its Annexes which prohibit the jettisoning of all plastics at sea and that entanglement of fur seals is still continuing,

Recognising that the bait boxes used on fishing vessels in particular and other packages in general need not be secured by plastic packaging bands because suitable alternatives exist,

Adopts the following conservation measure to minimise possible effects on the marine environment arising from fishing-related activities in the context of mitigating incidental mortality of non-target species and protecting the marine environment in accordance with Article IX of the Convention.

Disposal of Plastic Packaging Bands

1. The use on fishing vessels of plastic packaging bands to secure bait boxes shall be prohibited.
2. The use of other plastic packaging bands for other purposes on fishing vessels which do not use on-board incinerators (closed systems) shall be prohibited.
3. Any packaging bands, once removed from packages, shall be cut into approximately 30 cm sections, so that they do not form a continuous loop and at the earliest opportunity burned in the on-board incinerator.
4. Any plastic residue shall be stored on board the vessel until reaching port and in no case discarded at sea.

Prohibition of Discharge in High-Latitude Fisheries

5. Vessels fishing south of 60°S shall be prohibited from dumping or discharging:
 - (i) oil or fuel products or oily residues into the sea, except as permitted under Annex I of MARPOL 73/78;
 - (ii) garbage;
 - (iii) food wastes not capable of passing through a screen with openings no greater than 25 mm;
 - (iv) poultry or parts (including egg shells);
 - (v) sewage within 12 n miles of land or ice shelves, or sewage while the ship is travelling at a speed of less than 4 knots;
 - (vi) offal; or
 - (vii) incineration ash.

Translocation of Poultry

6. Live poultry or other living birds shall not be brought into areas south of 60°S, and any dressed poultry not consumed shall be removed from those areas.

¹ Except for waters adjacent to the Kerguelen and Crozet Islands

² Except for waters adjacent to the Prince Edward Islands
